SUMMARY

Creative Front-End Designer with strong skills in HTML and CSS, specializing in converting UI concepts into clean, responsive web pages. Experienced in UI/UX design using Figma, Framer, and Canva to create wireframes, prototypes, and visually appealing layouts. Skilled in building user-friendly interfaces, improving usability, and delivering pixel-perfect designs. Passionate about combining design principles with front-end coding to create smooth, modern, and accessible user experiences.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JAVA

UI/UX Design: Figma, Framer, Canva

Software Tools & Platforms: VScode, IntelliJ IDEA

PROJECTS

Foodiee – Food Delivery Mobile App (UI/UX Case Study)

Sep 2025 – Present

UI/UX

Figma, Framer

- Designed a complete end-to-end food delivery mobile application named Foodiee, focused on offering a seamless and delightful user experience for browsing, customizing, and ordering food.
- Notification Permission Screen: Illustrated onboarding page to encourage user engagement with offers and order updates.
- High-quality food imagery with carousel
- Customizable item quantity selector
- Size selection modules (Small, Medium, Large, Family)
- Clear localized pricing and cart visualization

Organic Tea & Coffee – Landing Page with User Login (Web Development Project)

Oct 2025

Web Development

HTML, CSS

- Developed a clean and visually appealing landing page for an organic tea and coffee brand. The project includes a responsive hero section with a nature-themed background and a fully styled user login component placed alongside the main banner.
- Large hero section with high-resolution background image
- Organic aesthetic design suitable for eco-friendly brands
- Home, About, Service, Design, and Contact menu items
- Clean spacing and classic typography
